### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jim McPherson on 16 March 2007.

2. The application has been amended as follows:
- a. claim 61, lines 10 and 13: project[[s]]
  - b. claim 61, lines 13-15: the first ends of the first and second arc segment project[[s]] in a direction away from the second ends of the first and second arc segments [[with respect to the clip axis]].
  - c. claim 77, line 2: "tube of a delivery devi[[s]]ce"
  - d. claim 77, line 2: " deployment f[[or]]rom the delivery device"
  - e. claim 77, lines 3-4: "causes the first and second arcuate segments to unfold upon [[itself]] themselves"
  - f. claim 77, line 5: "segments return to their relaxed state and engage tissue"
  - g. claim 78, line 2: "wire segments unfold[[s]]"
  - h. claim 79, line 2: "wire segments unfold[[s]]"

### ***Allowable Subject Matter***

3. The following is an examiner's statement of reasons for allowance: The inclusion of the limitation the first ends of the first and second arc segments project in a direction

away from the second ends of the first and second arc segments. This limitation is included in all the claims and is not found in the prior art references.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hoyns et al. (Patent No. 6,766,186 B1) discloses a post biopsy tissue marker (Figure 14). It is noted that the first ends (66) of the first (61) and second (62) arc segments project in a direction *towards* the second ends (66) of the first (61) and second (62) arc segments, therefore, Hoynes et al. does not read on claim 61.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
